

SAFE CARE®

Industrial Cleaners, Solvents & Specialty Products

SC-ActiSolv Safety Solvent

DESCRIPTION: **SC-ActiSolv** is a low volatile, fatty alcohol solvent derived from renewable plant-based resources. **SC-ActiSolv** may be used in a variety of cleaning applications including polymerized lubricants, fuels, acrylic and oil-based paints, printing inks and coatings. **SC-ActiSolv** may also be used as a co-solvent or solvent additive in non-ionic surfactant solutions for heavy-duty degreasing. Highly water-miscible, **SC-ActiSolv** may be free rinsed with hot or cold water and is intended to loosen hardened hydrocarbon soils. **SC-ActiSolv** is chemically non-reactive, storage stable and highly reusable for several weeks in conventional solvent recovery machines, ultrasonic degreasers and hand operations. **SC-ActiSolv** complies with:

- USDA BioPreferred® Program
- OSHA 29-CFR Ch. XVII 1910.1200 and 40 CFR Ch. 1, Subparts C & D
- USEPA 600, 4-90, 027 for aquatic toxicity
- USEPA 601 & 602 for VOC testing
- US DOT: Class 55, Liquid Cleaning Compounds

SC-ActiSolv is a powerful replacement for:

- Xylene
- Toluene, Methyl benzene
- Methyl Chloride
- Stoddard
- Glycol Ethers, Butyl Cellosolve

INSTRUCTIONS: **SC-ActiSolv** may be sprayed on or applied with a cloth. Depending on the soil, allow the product to dwell before wiping soil from the cleaning surface. **SC-ActiSolv** may be used full-strength or diluted with water depending on the specific application. When water is added, **SC-ActiSolv** will become more of a release agent and less of a solvent. Suggest a water rinse to remove soil and residual product.

Suggested Dilutions:	Heavy Cleaning	100% - 50%
	Average Cleaning	50% - 20%
	Routine Maintenance	10% - 2%

Note: **SC-ActiSolv** will melt virgin acrylic and should not be exposed to acrylic resins.

SAFE CARE® PRODUCTS ARE:

- Non-toxic
- Non-reactive
- Non-carcinogenic
- Readily biodegradable
- Derived from renewable resources
- Safe to use, store and dispose of

SAFE CARE® PRODUCTS DO NOT CONTAIN:

- Petroleum distillates
- Glycol ethers
- Terpenes
- Synthetics
- Builders & reagents
- Caustics

BASIC PROPERTIES:

Appearance:	Clear, light amber liquid
Odor:	Mild surfactant
Water Solubility:	100% Soluble
Boiling Point:	122°C (252°F)
Flash Point:	85°C (185°F)
Specific Gravity:	~1.06 @60/60°F
pH:	9.2 – 10.7

The information contained herein is believed to be correct including test data conducted under controlled laboratory conditions. Users of **SAFE CARE** products should perform their own test(s) to determine the suitability of the product for their specific application(s).
