

SAFE CARE®

Industrial Cleaners, Solvents & Specialty Products

SC-Enhanced Degreaser Concentrate

DESCRIPTION: *SC-Enhanced Degreaser Concentrate* is our most powerful degreaser used in a variety of industrial and transportation applications. Comprised of non-ionic surfactants and a powerful aqueous organic solvent, *SC-Enhanced Degreaser* is a colloidal solution that creates a unique hydrocarbon release agent. The most difficult soils such as dust-laden oils, fuels and lubricants will be lifted and rinsed away without damaging or reacting with the cleaning surface. *SC-Enhanced Degreaser* is appropriate for all types of ferrous metals, and will not harm mechanical parts including rubber hoses and gaskets. *SC-Enhanced Degreaser* complies with:

- OSHA 29-CFR Ch. XVII 1910.1200 and 40 CFR Ch. 1, Subparts C & D
- USEPA 600, 4-90, 027 for aquatic toxicity
- USEPA 601 & 602 for VOC testing
- USDA BioPreferred® Program

INSTRUCTIONS: *SC-Enhanced Degreaser* is a concentrate and may be used full-strength or diluted with water depending on the specific application. Less product may be necessary with increased temperature, dwell time and/or agitation. Rinse thoroughly with water to remove soil and residual product.

Suggested dilutions:	Difficult Cleaning	100% - 50%
	Average Cleaning	50% - 20%
	Light Cleaning	20% - 5%

SAFE CARE® PRODUCTS ARE:

- Non-toxic
- Non-reactive
- Non-carcinogenic
- Readily biodegradable
- Derived from renewable resources
- Safe to use, store and dispose of

SAFE CARE® PRODUCTS DO NOT CONTAIN:

- Petroleum distillates
- Glycol ethers
- Terpenes
- Synthetics
- Builders & reagents
- Caustics

BASIC PROPERTIES:

Appearance:	Clear, light amber liquid
Odor:	Mild surfactant
Water Solubility:	100% Soluble
Boiling Point:	100°C (212°F)
Flash Point:	None
Specific Gravity:	~1.02 @ 60/60° F
pH Range:	10.2 – 11.2

The information contained herein is believed to be correct including test data conducted under controlled laboratory conditions. Users of **SAFE CARE** products should perform their own test(s) to determine the suitability of the product for their specific application(s).
